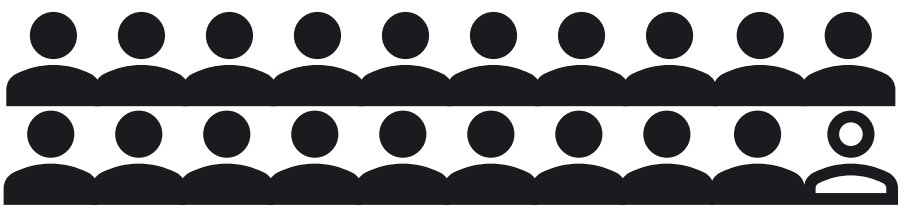
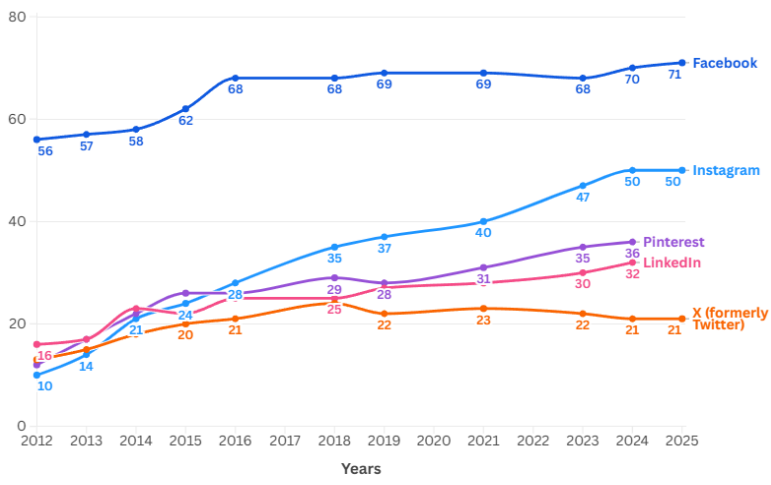
THE COST OF YOUR SCROLL:

Up to 95% of youth ages 13–17 report using a social media platform, with more than a third saying they use social media "almost constantly."



How much is it consuming our lives?

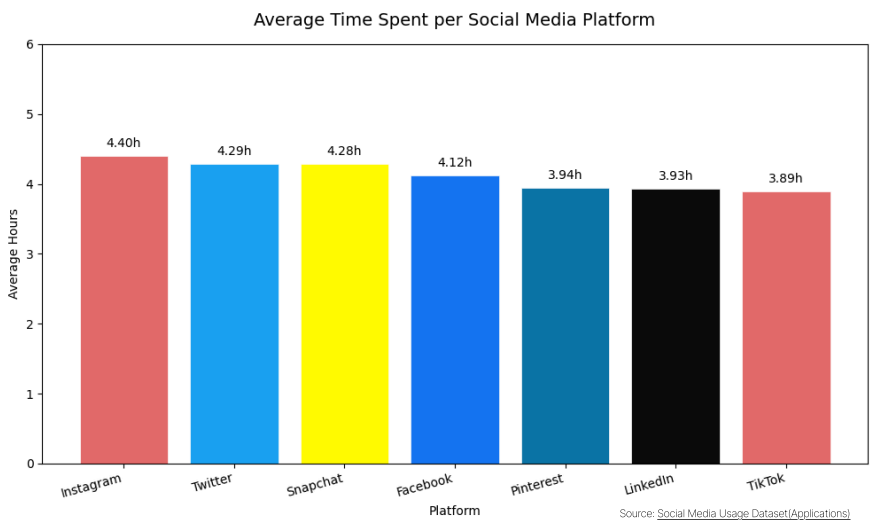
Social Medias & The Percentage Used by Adults:
% of U.S. adults who say they use



Source: Surveys of U.S. adults conducted 2012-2025.

Social media has increased over the years and continues to climb.

Users are spending roughly 4 hours a day on each site



Source: Social Media Usage Dataset(Applications)

Is it bad?

41% of teens with high social media usage rate their overall mental health poor or very poor.

Poor mental health harms an individuals relationships, health, and studies.

Chronic social media use needs to be limited.

How can we start the change?

If you are a parent:
- Set time limits
- Introduce your children to hobbies outdoors
- Create tech free zones in your home (i.e. Living room)
- & Spend more time with your kids

If you are a teenager/adult:
- Be more intentional with your online activity
- Set limits
- Find activities outside that you enjoy
- & Take care of yourself

Don't let your phone hold you hostage.
